

4 Year Old Curriculum Guide

Linglestown Christian Nursery School

We are pleased to share our curriculum plans for our four year old classes!

Your Four year old is polishing their social skills which will prepare them for their future experiences in life. Confident learners separate from their family, get along with their classmates, work in groups and by themselves, solve problems, and express their ideas and needs. Acquiring social skills is the most important part of nursery school.

Self-help skills are another important part of nursery school. They include picking up after themselves, following directions, bathroom manners, and caring for cubbies and backpacks.

Large motor skills are developed as your child plays on the playground, and participates in music and movement activities. Math and science are incorporated throughout the year within our monthly themes.

Handwriting Without Tears and other resources help students succeed. Children will learn their colors, shapes, letter strokes, upper and lower case letters, sounds and numbers. Your child will color, draw, form letters, sing and count.

In addition, the children will also use the Clifford Weekly Readers which will enhance their literacy, math, science and social skills.

Our Social Skills curriculum is Second Step. This program emphasizes language skills development and teaches young children how to identify feelings, reduce anger, solve problems, and get along with others.

Lastly, our Bible component uses ACSI Preschool Bible curriculum. The emphasis is familiar Bible truths that emphasize God's love. Children are encouraged to put them into practice in their everyday lives. Character development is emphasized in our monthly character themes and memory verses.
