

Testimonials from Linglestown Christian Nursery School Families

The school is well-balanced in the areas of social, spiritual, intellectual and emotional development. There are always programs going on that teach the kids important life skills. They have fun and they are learning at the same time. I am so glad our family found LCNS and would highly recommend it to any family!!

They provide a safe environment for my children to learn and play.

LCNS provides a well-rounded experience for preschool children-- lots of educational experiences, social opportunities, exposure to religion, peer interactions, special events & field trips, outside play and specials (i.e., movement & music, arts & crafts).
