

Construction Update

Beginning the week of February 22 the main entrance of the church will not be accessible. Construction and site work will keep the main entrance unavailable for the immediate future.

Access to the church will be through either the doors located on the west or east end of the building. Both entrances will be open at regularly scheduled times for Sunday worship, group events and Nursery School.

During the week you will need to use the main entrance on the south east side of the building to gain access. Signs will be erected to point you in the right direction. Please ring the bell located at the new main entrance so that you may be permitted to enter.

The key fob access is available at both the east and west entrances for those who have key fobs. If your group is not scheduled to use the building and you would like access please call the church office at 545-5200 so that we can schedule the doors to be opened.
